

ADT Commercial

Hospitality

Experience helps keep us one step ahead

In the hospitality industry, nothing is more important than protecting people—and no one understands this better than the ADT Commercial team. With years of hands-on knowledge in the fire and life safety industry, we have worked with thousands of hotels and resorts to help manage their risks. We partner with you every step of the way to assist with design, install, monitor, test and maintain the system that will help protect your business, all while enhancing operations and helping to reduce costs. As local service leaders, we are never more than a phone call away.

We listen to your concerns before getting to work

Every ADT Commercial solution is unique, so we begin our relationship by listening to your concerns and doing a total assessment to determine your risks and liabilities. Our certified technicians are trained and experienced on all major systems regardless of vendor, so they are not limited to certain products. We don't do cookie-cutter systems and we won't sell one that does not meet your specific needs.

Our solutions include:

- Fire alarm and detection
- 24/7/365 professional monitoring
- Fire doors and extinguishers
- Kitchen hoods
- Fire sprinklers (in select markets)
- Evacuation plans
- Fire suppression (in select markets)
- Communications
- Security
- Access control
- Video surveillance
- Intrusion

When it comes to testing, timing is critical

The last thing you need are alarms disturbing guests or interrupting an event.

We work with you to optimize your testing schedule

Drawing on our experience, we can help you identify the right times of the year and the best time of day to perform your required testing. Our team is highly sensitive to ensuring your facility enjoys the smallest amount of interruptions. If you're remodeling, we can also work with you on the timing of installations and upgrades to ensure a smooth transition with minimal disruptions.

Efficiency driven by our experienced technicians

ADT Commercial puts the right person and the right equipment on the job to help complete the work as efficiently as possible. We understand that you want our team to be in and out in a minimum amount of time. To help avoid future interruptions, we stay abreast of your day-to-day operations and preemptively schedule upgrades and suggest changes before problems arise.

Proper training helps you get the most out of your system

A false alarm isn't just an annoyance—it can cost you time and money. That's why ADT Commercial hospitality professionals will also provide training for your team—helping to ensure that they understand your panel and how to use your communications system to alert guests. If you are having a special event, we can even place a team on-site to ensure that any unique needs are met.

One call takes care of it all

We pride ourselves on our customer service and are never more than a phone call away. Our teams are local, so it is easy for us to arrive on-site quickly. ADT Commercial has the technology, trained professionals and experience to help protect your property and keep your guests safe.

Let's start a conversation.

ADT Commercial has extensive experience working as partners with the hospitality industry at hundreds of locations across the country. We make it easy to switch providers, and our onboarding process is predictable, dependable and painless.
