

# Working Together to Provide a Safe Environment for Veterans and Employees

Your One Ideal Partner for Federal Government Solutions

**ADT**® Commercial

# We understand the unique security threats of your campus

VA Medical Facilities are 24-hour operations that provide quality patient care to former military servicemembers who have devoted themselves to protecting our country. With an eye towards providing the most compassionate, specialized care possible for our nation's veterans, we can help you create a welcoming and safe caregiving environment.

Backed by extensive resources and a national footprint, it is our mission to help protect your patients, visitors, doctors, nurses and caregiving staff across day-to-day operations and to establish a comprehensive security program to respond to threats that all healthcare institutions face today.

We'll work with you to help identify vulnerabilities and analyze risks at your campus, beginning with the outermost perimeter in your parking areas before reaching your entryways and caregiving facilities.

## Your One Ideal Partner

ADT Commercial is your trusted partner to best serve the specific security needs of VA Medical Facilities, equipped with an extensive portfolio of solutions that includes:

- HSPD-12 approved access control
- Remote monitoring and analytics
- Intrusion alarm systems
- Critical gunshot detection technologies
- Video surveillance
- High-level system integration

Let us step in as your full-service provider so that your teams can concentrate on what matters most—delivering quality care to veterans and their families.

SECURITY THREATS	EXTERIOR SPACES	ENTRANCE WAY & OPEN PREMISES	RESTRICTED AREAS	HOSPITAL ADMINISTRATION
	1 2 3	4 5 6 7	8 9 10 11	12 13 14 15
Active shooter	•	•	•	•
Assault (sexual assault/workplace/domestic violence)	•	•	•	•
Terrorism/explosion	•	•	•	•
Abduction	•			
Contagions/health threat		•	•	•
Property theft	•	•	•	•
Vandalism	•			
Fire		•	•	•
