

Enhance Your Security Program with Video Monitoring Services

ADT Commercial video monitoring services can leverage your existing video technology and enhance your security program by reducing false alarms and improving safety protocols.

Benefit from custom solutions that help automatically detect unauthorized activity on-site while providing peace of mind for employees. Our video monitoring specialists are on hand to provide assistance through remote video and advanced analytics tools when needed.

Video Alarm Verification

Verifying on-site activity in real-time through video cameras helps reduce false alarms and provide better intel to first responders.

Video Tours

Performing remote video guard tours at the times and intervals you select helps detect suspicious activity or unusual conditions without increasing your on-site physical guard costs.

Help Assist Response

We respond to incidents triggered by a two-way communication device partnered with interactive remote video to provide your employees with immediate access to professional security assistance.

Advanced Video Analytics

Capture crucial surveillance footage in real-time using comprehensive and complex video filters that enhance people detection and reduce false alarms.

Video Escort

Leverage video escort services to provide an added layer of protection and peace of mind to employees during open and close procedures or as they enter or exit your building.

Video Health Checks

Ensure your system is running as expected with analytic-based detection of video obstructions, camera positioning and degraded picture quality.

Real-time activity reporting

With eSuiteSM account management, you can view live and recorded camera footage, pull critical location and business activity reports, and review alarm events including video clip playback from the past 12 months.

Powered by Experience. Driven by Excellence.™

You can rely on us to be your One Ideal Partner for integrated security, fire, life safety, and guarding solutions, backed by our national strength, local knowledge, and innovative approach to help protect your people, property, and assets.
