

A Layered Approach to K-12 School Security

Your One Ideal Partner for comprehensive solutions that help protect students and faculty.

ADT® Commercial

Create and maintain a safe learning environment

While there is no one-size-fits all solution to secure K-12 schools, today's emerging threats require a layered, systems-based approach with innovative and scalable solutions to help keep students and faculty safe.

We can help you create a comprehensive security and safety plan that begins with the outermost perimeter of your campus before reaching school entrances and classrooms, whether you're starting from scratch, want to upgrade aging infrastructure, or looking to integrate advanced technologies with an existing system.

Your One Ideal Partner

Trust the specialized teams at ADT Commercial to deliver an extensive portfolio of solutions and services that includes:

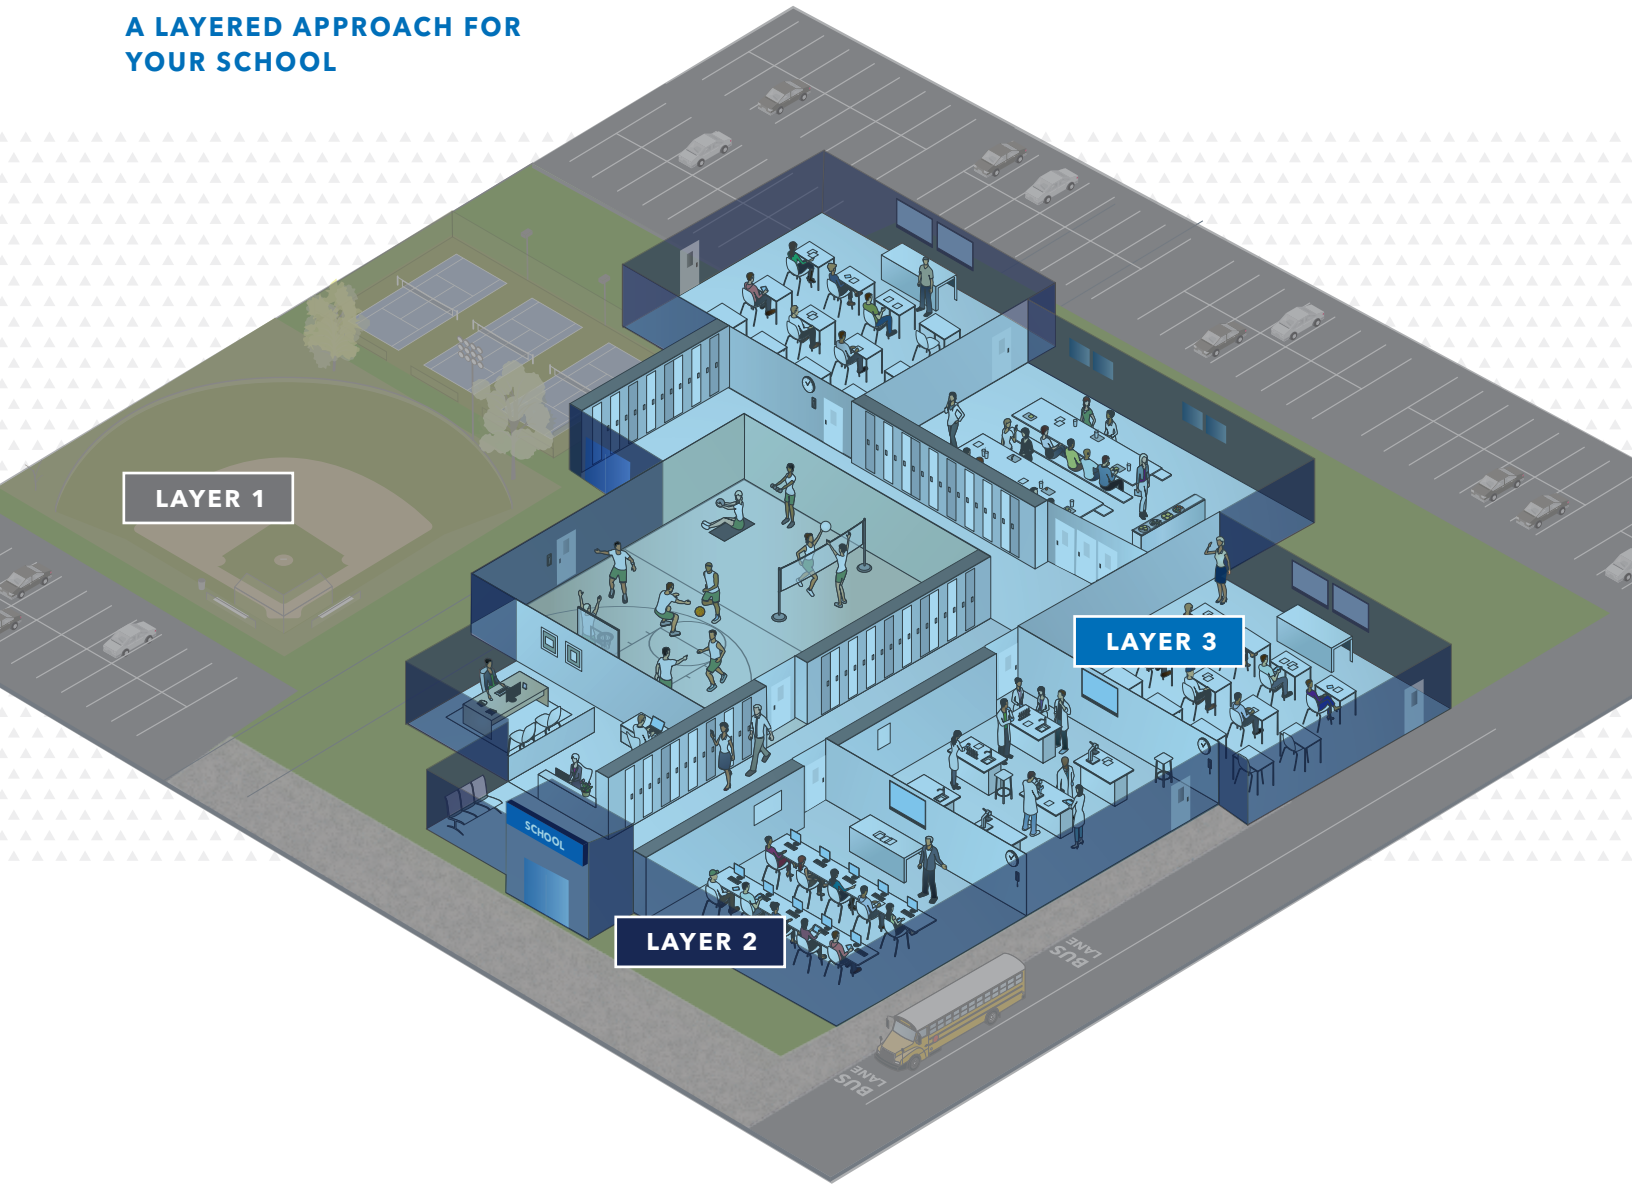

- Access control
- Video surveillance
- Multi-sensor technology
- Mass notification systems
- Fire alarm and sprinkler systems
- Site security assessments
- Security procedures and lockdown protocols
- System integration
- Installation, service and maintenance
- 24/7/365 UL Listed monitoring

Optimize your purchasing process with cooperative contract vehicles

As a contract holder for the nation's top cooperative purchasing organizations, we have the expertise to help streamline your purchasing process. Utilize our awarded contract vehicles to expedite procurement timelines and help keep budgets in check.
